Department of Economics

Diagnostic Test 2023-24

Report

Diagnostic test was organize for SYBA students in the academic year 2023-24. On 11 September 2023, a diagnostic test was conducted for SYBA students. In all 19 students responded. Among them, there were 5 slow learners and 14 advance learners.

To address the learning needs of these students, lectures were conducted in the months of September- October 2023 and January 2024. Dr. Pratima Kadam delivered talks on various topics of the syllabus. Dr. Bharati Yadav guided slow learners for their academic development. Dr. Pratima Kadam enlightened the advance learners for the development of research attitude as well as global competencies in the present scenario.

Dr. Sachin Kalel sent Educational links, Educational You-tube video-related syllabus were sent to all advanced learners through whatsAap. With the help of above information provided to students they could conduct research project on topic related to economics.

However, the responses from the slow learners were low. Among the slow learners, Shikalgar Saniya, Ingale Suresh and Shelar Aditi responded rarely, which may indicate that he is facing some challenges in the learning process.

On a positive sign of the above activity it is noted that Bhangare Tejas, Deshmukh Sarthak, Sanwant Sandip students of this class their marks have been increased in the first semester, indicating that they are benefited from the lectures and is making progress in their studies.

In conclusion, while the lectures seem to have had a positive impact on some of the students, more efforts may be needed to support the slow learners, especially those facing challenges in the learning process.

Process of Identification for Slow learners & Advanced Learners

Introduction :

Within the classrooms faculty have to deal with different types of students; some are very advanced learners who learn very fast and some are quite weak who learn very slowly. Therefore it is required to determine the abilities of the students in the class. Based on the ability determined, some students need only guidance and some students need a hard work and regular attention.

On the basis of their preceding classroom test performance, current subject performance and class observation, learning speed students can be classified in two groups; advanced learners and slow learners. Each type of students has different learning attitudes and learning habits. A faculty has to adapt a teaching methodology such that he/she may not lose the attention of the slow learners and turn off the advanced learners.

The purpose of assessment of the learning levels of the students and conduction of activities for them is

- Identification of the slow learners and advanced learners in the class
- To ensure that slow learners and advanced learners are taken care as per their needs.
- To help them out for improvement in their academics.

❖ **INITIATIVES FOR ADVANCED AND SLOW LEARNERS**

A) Slow Learners

If the performance score of the student is below 40% in Internal Assessment, then the student is considered as slow learners. Faculty mentors continuously take care and monitor the performance of slow learners and do periodic interaction with parents about the performance of slow learners. They also interact frequently to understand and assist students with issues that affect their ability to learn.

For encouraging and motivating slow learners, special attention is paid to them and a systematic procedure as shown in the flow chart and explained in detail as below is followed:

1. **Remedial Classes**: conducted for theory sessions.
2. **Compensatory Teaching**: Provisions in weekly time table by adding extra one hour to conduct problem solving sessions /

revision sessions/extra sessions, Students are given repeated practice on important questions.

3. **Assignments and Solving University Question Papers**: Provide solutions of questions papers from last 2 years

4. **Counseling Sessions**: Assist students in their weak areas of performance and suggest improvements

5. **Personal attention**: Providing special attention on non-academic parameters such as Communication Skill, Public Speaking, decide on Carrier Goals, and Managing Academics & Personality. Such students are given regular class tests in order to improve their performance in the university exam. Further, faculty members revise the tough topics as per the student's requirement and provide university question bank and discuss the way of presenting the answers in the exam to score marks. All this is achieved by incorporating audio and visual materials in addition to their regular course.

B) Advanced Learners

If the performance score of the student in Internal Assessment is above 70%, then the student is considered as advanced learners. Such students are encouraged to participate in advanced learning related activities.

1. Project Work in the place of class quizzes
2. Extended Library Use
3. Writing Assignments on more Challenging Topics
4. Encouraging to participate in co-curricular, extracurricular and other sport activities.

❖ Expected Outcome

1. Timely conduction of slow learners activities
2. Records based on student progress and observation.
3. Improvement in University Result.

Department of Zoology
Diagnostic Test F.Y.B. Sc. (NEP-2020) 2023-24

(NOTICE)

</div>

Date: 24.07.2023

All the students of F. Y. B. Sc. (PCBZ, CBZMi groups) are hereby informed that the diagnostic test in Zoology is organized on 28th July 2023 at 11:00 am in Zoology Department. The purpose of the test is assessing the students' capability in the Zoology subject and providing students required conceptual knowledge so that students can gain expertise in the subject. The syllabus for the test is from Std 12/ SSC board textbook. Students must prepare accordingly.

The test is compulsory for all the students.

Diagnostic Test and Measures taken for Improvement of Slow and Advanced Learners Report (2023-24)

A diagnostic test was conducted for F. Y. B. Sc. on 28th July 2023 at 11:00 am in Zoology department. From the result slow learners and advanced learners were identified and list was prepared and their number is given below-

Sr. No.	Class	No. of Slow Learners	No. of Advanced Learners
1	F. Y. B. Sc.	20	12

Separate home assignments, oral counseling were given to slow learners and advanced learners. They were guided about how to write correct answers.

The marks obtained by slow learners and advanced learners were compared with their diagnostic test.

Diagnostic Test F.Y.B. Sc. (NEP -2020) 2024-25

NOTICE

</div>

Date: 26.08.2023

All the students of F. Y. B. Sc. (CBMi, CZMi and PCM groups) are hereby informed that the diagnostic test in Chemistry is organized on 2nd September 2023 at 10:00 am in Chemistry Department. The purpose of the test is assessing the students' capability in the chemistry subject and providing students required conceptual knowledge so that students can gain expertise in the subject. The syllabus for the test is from Std 12/ SSC board textbook. Students must prepare accordingly.

The test is compulsory for all the students.

Date: 02/09/2023

Time: 10:00 am - 11:00 am

Marks: 25

Note: 1. All questions are compulsory

      2. All questions carry equal marks

1. Molecular Solids are

   a. Crystalline solids

   b. Amorphous solids

   c. Ionic solids

   d. Metallic solids

2. Which of the following is n-type semiconductor

   a. Pure Silicon

   b. Silicon doped with Arsenic

   c. Silicon doped with Gallium

   d. Germanium doped with Indium

3. The colligative property of solution is

   a. Vapour pressure

   b. Boiling point

   c. Osmotic Pressure

   d. Freezing point

4. In calculating osmotic pressure, the concentration of solute is expressed in

   a. Molarity

   b. Molality

c. Mole Fraction

d. Mass percentage

5. The blood in human body is highly buffered at pH of

a. 7.4

b. 7.0

c. 6.9

d. 8.1

6. The enthalpy of formation for all elements in their standard states is

a. unity

b. zero

c. less than zero

d. different elements

7. Ozone layer is depleted by

a. NO

b. NO_2

c. NO_3

d. N_2O_5

8.In interhalogen compound, which of the following halogens is never the central atom

a. I

b. Cl

c. Br

d. F

9. Magnetic moment of a metal complex is 5.9 BM. Number of unpaired electrons in the complex is

a. 2

b. 3

c. 4

d. 5

10. In which of the following series all the elements are radioactive in nature

a. Lanthanides

b. Actinides

c. d-block elements

d. s- block elements

11. Formula for the compound sodium hexacyanoferrate (III) is

a. $[Na\ Fe\ (CN)_6]$

b. $Na_2[Fe\ (CN)_6]$

c. $Na\ [Fe\ (CN)_6]$

d. $Na_3[Fe\ (CN)_6]$

12. Based on CFT predict the number of unpaired electrons in $[CrF_6]^{3-}$

a. 1

b. 2

c. 3

d. 4

13. Identify the chiral molecule from the following.

a. 1- Bromobutane

b. 1,1-dibromobutane

c. 2,3-dibromobutane

d. 2- bromobutane

14. Which of the following is used as source of dichlorocarbene

a. tetrachloromethane

b. chloroform

c. iodoform

d. DDT

15. Ethers are kept in air tight brown bottles because

a. Ethers absorb moisture

b. Ethers evaporate readily

c. Ethers oxidise to explosive peroxides

d. Ethers are inert

16. Aldol condensation is

a. electrophilic substitution reaction

b. nucleophilic substitution reaction

c. elimination reaction

d. addition-elimination reaction

17. The hybridisation of nitrogen in primary amine is

a. sp

b. sp^2

c. sp^3

d. sp^3d

18. Carbylamine test is given by

a. Primary amine

b. Secondary amine

c. Tertiary amine

d. Both secondary and tertiary amines

19. Tryptophan is called essential amino acid because

a. It contains aromatic nucleus

b. It is present in all the human proteins

c. It cannot be synthesized by human body

d. It is essential constituent of enzymes

20. RNA has

a. A-U base pairing

b. P-S-P-S backbone

c. double helix

d. G-C base pairing

21. Nylon fibres are

   a. Semisynthetic fibres

   b. Polyamide fibres

   c. Polyester fibres

   d. Cellulose fibres

22.Silk is a kind of …….. fibres

    a. Semisynthetic

    b. Synthetic

    c. Animal

    d. Vegetables

23. Dacron is another name of

a. Nylon 6

b. Orlon

c. Novolac

d. Terylene

24. Terylene is

   a. Polyamide fibres

   b. Polyester fibres

c. Vegetable fibre

d. Protein fibre

25. Chemically pure cotton is

   a. Acetate rayon

   b. Viscose rayon

   c. Cellulose rayon

   d. Cellulose

NOTICE

Date: 2.09.2023

All the students of FYBBA are hereby informed that the diagnostic test in Business Communications (BC), Principal of Management (PM), Database Management System (DBMS), Statistics is organized on 5 th September 2023 at 1:00 pm-2:00 pm in Computer Lab. The purpose of the test is assessing the students' capability in the subject and providing students required conceptual knowledge so that students can gain expertise in the subject. The syllabus for the test is from Basic Computer. Students must prepare accordingly.

The test is compulsory for all the students.

Advanced and Slow Learners

This policy paper is recognized as the "Policy on Advanced and Slow Learners" of Mahatma Phule Mahavidyalaya, Pimpri, Pune. Through this policy the college pronounces its assurance to the vital facilitation and prop up to the advanced learners to be excellent achievers and slow learners to be better performing and achieving students in the academic and personal life. The policy also persuades the teaching Departments to develop significant strategies and scientific implementations to benefit both the advanced learners and slow learners in the education system without forgetting the average performers.

A)Introduction

Mahatma Phule Mahavidyalaya, Pimpri is an academic institution for knowledge generation and dissemination through effective teaching programmers. It is established in the name of great social reformer Mahatma Joti Rao Phule. This college is established in 1983 for the education of sons and daughters of poor and needy workers in the industrial area of Pimpri-Chinchwad. The college is offering graduation, Post-Graduation programmes to the students from the slum area, rural as well as urban backgrounds in Pimpri-Chinchwad. Majority of the students are from the rural background and also represents the middle or lower middle class social environment. The college is a complete state government-funded college and therefore caters to the needs of the students from the minority communities as well. The ultimate aim of the programmes in the college is to make all students admitted in the college equipped and competent to face the challenges of the life and contribute to the social development through the critical reflection and

academic achievements. This is possible through the process of making the academics more exigent and competent for the advanced learners and also by supporting the slow learners to achieve more in their academics and personal life. In every academic programme there will be some students who can do really well and learn more with the comprehension capacity, retention ability and hard working practices. On the other side some students may find disadvantage in their learning process due to various personal or systemic reasons. In both these situations the students need special attention and interventions to make their learning activity more enriching and effective.

B)The Concepts

B.1) Advanced Learners

The term advanced learner in this policy refers to the students who can engage learning activities faster than the other students in the class and achieve high scores and make significant achievements in their life. They are more potential with their comprehension, retention, memory. critical thinking, creativity and contextualization practices. They also may have hard working behaviors and usually achieve more than the majority of the classmates. These students are in a great extend gifted and talented than the others in the class. These students can take up higher level learning and academic responsibilities. They can bring some new concepts, strategies, and also can take the leadership in the teaching learning activities.

B.2) Slow Learners

The slow learners are always the poor achievers and lag behind with the academic life. They may fail in exams or will score only poor grades. They will find it difficult to understand the lessons and may have difficulties in their comprehension, retention, reproduction and integration. They may fail in

articulations and critical reflections. Their motivation levels also may be poor and may find it difficult to adjust with the teaching learning process and can drop out or fail in the programme. The poor performance may not be a sign of the poor capacity or talent but may be due to poor family situations.

C) Methodology of assessment

In the academic year 2023-24, Offline test was conducted one month after completing admission procedure. Then oral was conducted. After the result of both, slow and advanced learners were defined. For Arts Faculty specialization begins from S.Y.B.A. So this these tests were conducted for all departments special level students. In commerce faculty this procedure was run for F.Y.B.Com . In Science Faculty same procedure was conducted for F.Y.B. Sc. and T.Y.B. Sc. classes. For BBA(CA) it was conducted for FYBBA(CA).For B. Voc. faculty, students were asked to create videos. It was supervised by teachers. And by conducting this practical, slow and advanced learners were identified.

The students can be assessed to identify their learning levels by specific mechanisms..

This level can be set as the benchmark of the student. Subsequently they can be assessed continuously through the examination results at various levels and stages, their performances in the extra-curricular and co-curricular activities throughout the program The procedure can be a statistical process of making the three levels like High, Average and Low on the basis of the central tendencies (mean plus and minus Standard deviations). The change of the students and the levels achievements can also be compared with the previous.

After identifying slow and advanced learners, special activities were run for them. Due to Covid pandemic, college was run on offline mode. So we faced some difficulties in conducting the activities. In spite of that Offline Career Counseling

took place for advanced learners of each department. Along with that students are motivated to participate seminars, webinars, contests, quiz, online courses etc.

Then University examination was conducted by SPPU. After the declaration of the result ,the difference in marks of students was notable.

Lastly attainment statement was prepared by each academic department.

semester so that the advancements can be assessed and appropriate interventions can be made.

D) Policy Guidelines for Advanced learners

1. Advanced learners are motivated to strive for higher goals. They are provided with additional inputs for better career planning and growth through offering special coaching for higher level competitive examinations

2.After identifying slow and advanced learners, special activities were run for them. Due to Covid-19 pandemic, college was run on offline mode. So we faced some difficulties in conducting the activities. In spite of that Career Counseling took place for advanced learners . Along with that student are motivated to participate in seminars, webinars, contests, quiz, online courses etc.

3. Motivating them to involve in research projects to inculcate research orientation and higher studies aspirations

4. Helping them to participate in group discussions, technical quizzes to develop analytical and problem-solving abilities in them and thereby, to improve their presentation skills. Encouraging them to participate in National International Conferences and also to make presentations

5. Startups are offered the advanced learners. Seed money can be offered to advanced learners to make their innovative proposals implemented.

6. The mentors give higher goals and also make the advanced learners get higher levels of personality development and stress management trainings. & They are made the supporters to the average and the slow learners.

E) Policy Guidelines for Slow learners

1. The slow learners are not labeled as poor achievers or problem students in the class or department so that their motivation and their interest are not negatively affected. This can also make them more stressed, and introvert in the class.

2. They should be treated as any other student in the class but they can be provided extra classes for improve the performance.

Policy Guidelines for Slow learners

1. The slow learners are not labeled as poor achievers or problem students in the class or department so that their motivation and their interest are not negatively affected. This can also make them more stressed, and introvert in the class.

2. They should be treated as any other student in the class but they can be provided extra coaching and counseling for improvement and achievement.

3. The Department and individual teachers help the slow learners by giving proper guidance and support to them.

4. Academic and personal counseling are given to the slow learners by the tutor, mentor and the counseling cell.

5. Bilingual explanation and discussions are imparted to the slow learners after the class hours for better understanding.

The process of giving additional inputs to the advanced learners and the slow learners is not an effort to make the students average achievers but to make very one better achievers. Even if the students are identified as slow learners or advanced learners in the class they should not be labeled as the extra ordinary or poor but they need to be treated equally in the class with supportive care and appropriate pedagogical systems so that the talented can make more achievement and the less talented also make their goals in life achieved. The mentoring and facilitating efforts of the teachers and the college administrative system will be a great investment in achieving the best result and performance of the students.

Department of BBA(CA)
Slow and Advanced Learner's Scheme (2023-24)

Testing students' learning level at entry point is important for bringing them on the common platform as far as their progression to higher studies or getting placement in post-education phase ultimately. Few students may face problems at perception or understanding learning units. Hence, special coaching to such 'slow' learners will help them to come on normal platform where all the students exercise learning. At the same time, few more who have 'advanced' learning capacities may need additional resources to reach advanced levels of learning. Slow and advanced learners' scheme of the department works with this clarity in objective statement. Method of identifying these slow and advanced learners has been followed with conducting diagnostic test in offline mode. The following flow chart shows it in pictoral style:

Identifying slow and advanced learners

Following record have been maintained:

Slow and Advanced Learners Activity Report, result of class test / unit test, List of slow learners, List of Advanced Learners, Schedule of activity for slow learners, records attendance for session conducted for both slow learners and advanced learners, Report of performance improvement for slow learners, List / Record of tasks given to advanced learners, Expected and actual Outcome in university result

Majors taken for slow learners

- Faculty members supply them study materials through WhatsApp.
- Faculty members check their homework and assignment.
- Faculty members contacted regularly through WhatsApp. Moreover, each faculty during the class hours identifies the slow or advanced learners by interaction and classroom performance with them.
- Faculty mentors provide their mentees one-on-one counselling on improvement areas through WhatsApp.
- Providing YouTube video links of MCQ

Study Material Provided to FYBBA(CA) students 2023-24 (What sApp)

Measures taken for Advanced learners

- Guidance for career planning
- Conducting Placement Drive
- Conducting Guest lecture
- Guidance students for Competitive examination
- Encouraging to participate in various symposiums like quiz, poster presentation, Conferences, inter institution competition etc.

Date : 05/09/2023   Marks -60

Time : 1.00pm-2.00pm

Note: 1. All questions are compulsory

2. Each question carry 2 mark.

1. Who is the father of Computers?
a) James Gosling
b) Charles Babbage
c) Dennis Ritchie
d) Bjarne Stroustrup

2. What is the full form of CPU?
a) Computer Processing Unit
b) Computer Principle Unit
c) Central Processing Unit
d) Control Processing Unit

3. Which of the following language does the computer understand?
a) Computer understands only C Language
b) Computer understands only Assembly Language
c) Computer understands only Binary Language
d) Computer understands only BASIC

4. Which of the following computer language is written in binary codes only?
a) pascal   c) C
b) machine language   d) C#

5. Which of the following is the brain of the computer?
a) Central Processing Unit
b) Memory
c) Arithmetic and Logic unit
d) Control unit

6. Which of the following is not a characteristic of a computer?
a) Versatility   c) Diligence
b) Accuracy   d) I.Q

7. Which of the following is the smallest unit of data in a computer?
a) Bit
b) KB
c) Nibble
d) Byte

8. Which of the following is not a type of computer code?
a) EDIC
b) ASCII
c) BCD
d) EBCDIC

9. Which of the following is designed to control the operations of a computer?
a) User
b) Application Software
c) System Software
d) Utility Software

10. Which of the following device use positional notation to represent a decimal number?
a) Pascaline
b) Abacus
c) Computer
d) Calculator

11. Which of the following can access the server?
a) Web Client
b) User
c) Web Browser
d) Web Server

12. Which of the following is known as the language made up of binary-coded instructions?
a) High level
b) BASIC
c) C
d) Machine

13. Which of the following is not a type of computer on the basis of operation?
a) Digital
b) Analog
c) Hybrid
d) Remote

14. Which of the following type of computer is mostly used for automatic operations?
a) analog
b) digital
c) hybrid
d) remote

15. Which of the following invention gave birth to the much cheaper microcomputers?
a) PDAs
b) Microprocessors
c) Microcomputers
d) Mainframes

16. Which of the following computers are lower than mainframe computers in terms of speed and storage capacity?
a) Mainframes
b) Hybrid
c) Mini
d) Super

17. Which of the following is the first neural network computer?
a) AN
b) AM
c) RFD
d) SNARC

18. The process of producing useful information for the user is called _____
a) Controlling
b) Outputting
c) Inputting
d) Processing
